Message from the Commissioner

To the Honorable Senate and House of Representatives State of Mississippi

As Commissioner of the Mississippi Department of Banking and Consumer Finance (DBCF), I am pleased to submit the 2017 Annual Report pursuant to the reporting requirements of Section 81-1-113, Mississippi Code of 1972. This report contains information on the agency's budget as of Fiscal Year End 2017 (6/30/17) and regulatory activities as of Calendar Year End 2017 (12/31/17).

The Department is charged with regulating all state chartered commercial banks, thrift institutions, and credit unions, independent trust companies, consumer finance companies, premium finance companies, motor vehicle sales finance companies, pawn brokers, title pledge lenders, consumer loan brokers, check cashers, mortgage lenders, money transmitters, credit availability lenders, and debt management service providers.

Eighty percent of all banking assets in Mississippi reside in State-chartered banks. As of year-end 2017, DBCF's Banking Division regulated 63 State-chartered commercial banks with assets totaling \$76 billion, ranking Mississippi 18th largest of the 55 U.S. banking departments. This accounts to a 7% year-over-year increase in assets under supervision. Although the number of banks declined through mergers with other institutions, fewer but larger, more complex institutions are the result. In 2017, Mississippi's banks ended the year with Tier 1 Median Capital of 9.67%.

The Banking Division also regulates credit unions and one non-depository trust company. Mississippi's seven chartered credit unions have regulated assets of \$770 million.

Licensed companies in the Consumer Finance Division experienced an overall decrease of 6.0% to 2,758. The largest decrease was in Title Pledge with a 22% decrease for a new total of 425 licensees.

The Mortgage Division showed an increase of 9% in licensed mortgage companies ending the year with 373, while licensed mortgage loan originators increased 15% to 4,333.

On a national level, the DBCF has long held membership and leadership roles in the Conference of State Bank Supervisors (CSBS), the National Association of State Credit Union Supervisors (NASCUS), the National Association of Consumer Credit Administrators (NACCA), and the American Association of Residential Mortgage Regulators (AARMR). DBCF's involvement at the national level provides a better understanding of issues facing our regulated entities and increased influence with our Federal counterparts.

On a local level, the DBCF continues to foster economic growth through effective oversight and supervision of our regulated entities. In 2017, we hosted our annual Bank CEO Summit where participants were briefed on Congress and Financial Services, the Community Bank Research Conference, and the CSBS Bank Case Study Competition. Participants were also provided an update on bank board expectations and board governance.

In preparation for the Community Bank Research Conference, we conducted one-on-one interviews with five select bankers in the state. Questions related to the national and state economy, regulation and supervision, small business lending, management succession and technology. The collection of stories and anecdotes provided meaningful insight for researchers. Additionally, we are actively participating in various community outreaches on financial literacy.

Thank you for your support of the DBCF's budget and our goal of increasing examiner staffing, lessening examiner turnover, and retaining experienced supervision staff to oversee the regulatory process. DBCF is fortunate to have professional, hard-working employees who remain diligent and focused on our mission to provide effective supervision and regulation of Mississippi's State-chartered banks and other financial service industries.

I hope you find this report informative. Should you have any questions regarding the contents of this publication, please do not hesitate to contact me.

The Board's sole duties are consideration of applications for authority to establish a bank (grant or deny charter), to hear branch applications that are protested or denied by the Commissioner, and to issue general regulation allowing parity between state chartered banks and national banks.

^{*} Statute allows continuation of appointment until member is reappointed or replaced.
